

VUES DE DESSUS CLÔTURES

Avez-vous été en mesure de choisir le design qui convient le mieux à votre jardin? Il suffit de regarder le côté technique pour pouvoir commencer. Avec ces vues de dessus, vous pouvez voir comment les écrans doivent être positionnés avec précision par rapport aux poteaux. Est-ce que l'écran de votre choix est positionné entre les poteaux visibles ou sont les poteaux placés de manière invisible derrière les écrans? Voir ici.
